Check those resource areas within which work	k is proposed:
(a) D Buffer Zone	
(b) Inland:	
☐ Bank*	Land Subject to Flooding,
☐ Bordering Vegetated Wetland*	Bordering
Land Under Water Body & Waterway*	☐ Isolated
(c) Coastal:	
☐ Land Under the Ocean* ☐ Coastal Beach*	Designated Port Area*
☐ Coastal Beach * ☐ Barrier Beach	□ Coastal Dune□ Coastal Bank
- Daillet Deach	
Rocky Intertidal Shore*	I Salt March*
☐ Rocky Intertidal Shore* ☐ Land Under Salt Pond*	□ Salt Marsh*□ Land Containing Shellfish*

^{*}Likely to involve U.S. Army Corps of Engineers concurrent jurisdiction. See General Instructions for Completing Notice of Intent.

Part II: Site Description

Indicate which of the following information has been provided (on a plan, in narrative description or calculations) to clearly, completely and accurately describe existing site conditions.

Number/Letter (of plan, narrative or calculations)	
	Natural Features:
	Soils
	Vegetation
	Topography
	Open water bodies (including ponds and lakes)
X	Flowing water bodies (including streams and rivers)
	Public and private surface water and ground water supplies on or within 100 feet of site
	Maximum annual ground water elevations with dates and location of test
***************************************	Boundaries of resource areas checked under Part I, item 11 above Other
	Man-made Features:
	Structures (such as buildings, piers, towers and headwalls)
X	Drainage and flood control facilities at the site and immediately off the site, including culverts and open channels (with inverts), dams and dikes
	Subsurface sewage disposal systems
	Underground utilities
	Roadways and parking areas
	Property boundaries, easements and rights-of-way
	Other
Part III: Work Desc	ription
ndicate which of th	ne following information has been provided (on a plan, in narrative description or calcula-
ions) to clearly, co	impletely and accurately describe work proposed within each of the resource areas

briconca iii i aiti, i	tent i above.
Identifying Number/Letter (of plan, narrative or calculations)	. Planview and Cross Section of:
	Structures (such as buildings, piers, towers and headwalls)
X	Drainage and flood control facilities, including culverts and open channels (with inverts), dams and dikes
(====================================	Subsurface sewage disposal systems & underground utilities
	Filling, dredging and excavating, indicating volume and composition of material
: ::10::	Compensatory storage areas, where required in accordance with Part III, Section 10:57 (4) of the regulations
-	Other
	Point Source Discharge
)—————————————————————————————————————	Description of characteristics of discharge from point source (both closed and open
	channel), when point of discharge falls within resource area checked under Part I, item
	11 above, as supported by standard engineering calculations, data and plans, including but not limited to the following:

None Applicable

- 1. Delineation of the drainage area contributing to the point of discharge;
- 2. Pre- and post-development peak run-off from the drainage area, at the point of discharge, for at least the 10-year and 100-year frequency storm;
- 3. Pre- and post-development rate of infiltration contributing to the resource area checked under Part I, item 11 above;
- 4. Estimated water quality characteristics of pre- and post-development run-off at the point of discharge.

Part IV: Mitigating Measures

- 1. Clearly, completely and accurately describe, with reference to supporting plans and calculations where necessary:
 - (a) All measures and designs proposed to meet the performance standards set forth under each resource area specified in Part II or Part III of the regulations; or
 - (b) why the presumptions set forth under each resource area specified in Part II or Part III of the regulations do not apply.

- 2. Clearly, completely and accurately describe, with reference to supporting plans and calculations where necessary:
 - (a) all measures and designs to regulate work within the Buffer Zone so as to insure that said work does not alter an area specified in Part I, Section 10.02(1) (a) of these regulations; or
 - (b) if work in the Buffer Zone will alter such an area, all measures and designs proposed to meet the performance standards established for the adjacent resource area specified in Part II or Part III of these regulations.

2 pipes installed same size as under road so as to make a driveway	

Part V: Additional Information for a Department of the Army Permit COE Application No. (to be provided by COE) (Name of waterway) Names and addresses of property owners adjoining your property: 4. Document other project alternatives (i.e., other locations and/or construction methods, particularly those that would eliminate the discharge of dredged or fill material into waters or wetlands). 5. 8½" x 11" drawings in planview and cross-section, showing the resource area and the proposed activity within the resource area. Drawings must be to scale and should be clear enough for photocopying. Certification is required from the Division of Water Pollution Control before the Federal permit can be issued. Certification may be obtained by contacting the Division of Water Pollution Control, 1 Winter Street, Boston, Massachusetts 02108. Where the activity will take place within the area under the Massachusetts approved Coastal Zone Management Program, the applicant certifies that his proposed activity complies with and will be conducted in a manner that is consistent with the approved program. Information provided will be used in evaluating the application for a permit and is made a matter of public record through issuance of a public notice. Disclosure of this information is voluntary, however if necessary information is not provided, the application cannot be processed nor can a permit be issued. I hereby certify under the pains and penalties of perjury that the foregoing Notice of Intent and accompanying plans, documents and supporting data are true and complete, to the best of my knowledge. • Signature of Applicant Date Signature of Applicant's Representative Date "Exception to ENG Form 4345 approved by HQUSACE, 6 May 1982", (TEST) ... This document contains a joint Department of the Army and State of Massachusetts application

"This document contains a joint Department of the Army and State of Massachusetts applicatio for a permit to obtain permission to perform activities in United States waters. The Office of Management and Budget (OMB) has approved those questions required by the US Army Corps of Engineers. OMB Number 0702-0036 and expiration date of 30 September 1983 applica". This statement will be set in 6 point type.
